Bengaluru has been the place to be for the laser industry in India for many years. After the cancellation of the physical trade fair LASER World of PHOTONICS INDIA 2020, Messe Muenchen India decided to offer once again the opportunity for its customers to get together in this strong region in 2021. Hence, the next edition of LASER World of PHOTONICS INDIA will take place from September 22-24, 2021, at Bangalore International Exhibition Centre (BIEC).

Bhupinder Singh, CEO Messe Muenchen India, says: "Bengaluru has traditionally been an important destination for the laser and photonics industry. Our customers and business partners support our plan to organize the trade fair in 2021 in this region. The event will accelerate growth and enable the aggregate laser industry to gain momentum after the current economic slump."

Dr. Reinhard Pfeiffer, Deputy Chairman of the Board, Messe München GmbH, adds: "The business needs of our customers take always center stage. In 2020, we were not able to realize the physical event in Bengaluru. But we are confident that in 2021 we will come back stronger, giving the laser and photonics community a new chance to personally connect, network and drive business in the heart of India's technology and innovation hotspot."

Co-located trade fairs

The event portfolio in September 2021 at BIEC will be accompanied by the parallel events electronica India and productronica India as well as MatDispens.

More Information about LASER World of PHOTONICS INDIA: www.world-of-photonics-india.com

LASER World of PHOTONICS INDIA

LASER World of PHOTONICS INDIA is India's only dedicated and leading trade fair for the laser and photonics community. It presents the entire range of lasers and optical technologies in an international setting, tailored to the specific needs of the Indian market and addressed to a wide range of user industries and application fields.
